### Special needs support

A person with special needs is a potential participant whose individual physical, mental or health-related situation is such that his/her participation in the project / mobility Action would not be possible without extra financial support. Higher education institutions that have selected students and/or staff with special needs can apply for additional grant support to the National Agency in order to cover the supplementary costs for their participation in the mobility activities. For persons with special needs, the grant support may therefore be higher than the maximum individual grant amounts set out below. Higher education institutions will describe on their website how students and staff with special needs can request such additional grant support.

Extra funding for students and staff with special needs may be provided also from other sources at local, regional and/or national level.

As regards the accompanying persons for students and staff with special needs, they are entitled to receive a contribution based on real cost. ~~as foreseen for the mobility of staff (if the total duration of the stay abroad of the accompanying person is up to 60 days) or as foreseen for the mobility of students (if the total duration of the stay abroad is above 60 days).~~

#### Students in traineeships

Students carrying out traineeships will receive an additional top-up from the EU grant with an amount **between 100 and 200 EUR per month**. The precise level will be determined by National Agencies and/or higher education institutions according to the level of demand and level of co-financing for this type of mobility. In all cases, the same level should be given to all students within the same higher education institution, independently from any top-up and/or contribution in kind that the student may receive from the host enterprise. The top-up for students with disadvantaged backgrounds would not apply in this case. ~~In case of mobility of participants from Partner Countries, the first criterion for selecting students will be academic merit, but with equivalent academic level, preference should be assigned to students from less advantaged socio-economic backgrounds.~~

	Group 3 Programme Countries	750 EUR per month

In addition to the above-mentioned amounts for individual support, students going to/coming from Partner Countries will receive the following top-up amounts, to support them in covering their travel costs:

Travel distances <sup>29</sup>	Amount

<b>Between 4000 and 7999 KM:</b>	820 EUR per participant
<b>8000 KM or more:</b>	1100 EUR per participant

Travel distances must be calculated using the distance calculator supported by the European Commission ([http://ec.europa.eu/programmes/erasmus-plus/tools/distance\\_en.htm](http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm)). The distance of a one-way travel must be used to calculate the amount of the EU grant that will support the round trip.
